

Zodiac Smart Locking System

Locker management made easy

The Zodiac smart locking system is more than just state-of-the-art locking hardware. With it comes new ways to re-think the day to day and add value in unexpected ways.

Zodiac is a **complete smart locking system** including touchscreen controller, high-quality door latches and fast, intuitive software; **designed for best-in-class performance** and ready to be fitted to your lockers.

Whether it's offering users ultra-convenient parcel delivery, setting up colleagues remotely with one click, or helping create a luxury healthclub experience, Zodiac helps your business stand out.

How it works

Zodiac makes parcel delivery and collection seamless and effortless.

Designed from the ground up for reliability and ease of installation, the Zodiac system is elegantly simple. There are no daunting electrical enclosures or complicated on-site wiring. Instead each system comprises just three elements:

A touchscreen terminal with fast, user-friendly software.

Robust electronic latches with best in class strength and performance. Water resistant latches also available.

Distribution boards to connect the latches to the terminal.

Why it's so smart

Just some of the reasons why Zodiac could be the right solution for your lockers:

A streamlined user experience

- ✓ Clear, easy to use menus are designed to make every interaction fast and intuitive
- ✓ Parcels or belongings can be delivered and collected in seconds without any prior training
- ✓ Email notifications are possible and the system supports multiple languages

Sophisticated management tools

- ✓ System settings are controlled through an administrator menu on the terminal
- ✓ User data and access permissions can be imported easily from PC files
- ✓ Usage logs are available for audit purposes

Unique branding and customisation

- ✓ The software has been designed to support custom branding and colour schemes, which can be applied on a system-by-system basis. Further customisation is also possible on request

Typical applications

The Zodiac system works brilliantly across many applications and is ideally suited to the following:

Fitness & Leisure

- ✓ Perfect for gyms and health clubs who want to differentiate themselves from the competition
- ✓ Create completely sleek locker rooms with no visible locking hardware
- ✓ Brand the touchscreen and push useful information
- ✓ Configure advanced settings for such things as session duration, limiting lockers per user, overnight clear-out and to easily open all lockers for cleaning

Parcel lockers

- ✓ Zodiac ensures smooth deliveries without the need for anyone to be kept waiting
- ✓ Courier independent and packages can be safely and securely deposited in seconds – simply by selecting the recipient's name on the touchscreen
- ✓ Parcel lockers can be fitted in lobbies or outside
- ✓ Add value for residents by securely handling deliveries
- ✓ Allow staff to receive parcels at work without unduly occupying company logistics operators
- ✓ IP-rated hardware for outdoor installations - we can switch out the electronic latches and touchscreen for water resistant versions

We're here and ready to help

We have been manufacturing smart locks and locking systems in our UK facility for over 20 years and have sold over 2 million smart locking solutions globally. Supported by our expert teams in Europe and America, we are your trusted partner for any locking requirement.
